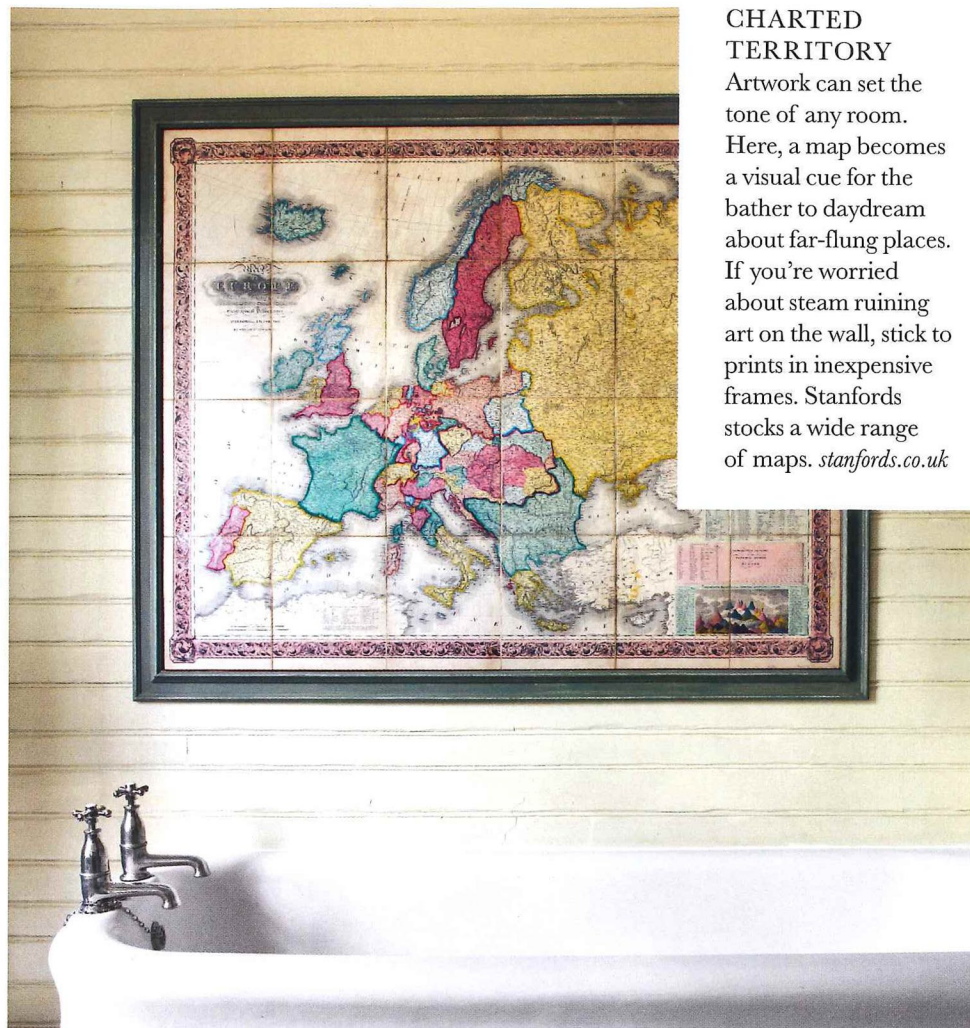

### GRAPHIC IMPACT

'By using a monochrome scheme with a graphic mix of layered patterns, this tiny bathroom became a dynamic space full of visual interest,' says its designer, Hubert Zandberg. 'The size demanded an acute awareness of practicality and ergonomics. A vintage train rack and a Chinese ceramic stool sneak in extra surface space.' A mirrored cabinet built into the wall cavity maximises the space. [hzinteriors.com](http://hzinteriors.com)

**CHARTED TERRITORY**  
Artwork can set the tone of any room. Here, a map becomes a visual cue for the bather to daydream about far-flung places. If you're worried about steam ruining art on the wall, stick to prints in inexpensive frames. Stanfords stocks a wide range of maps. [stanfords.co.uk](http://stanfords.co.uk)

## decorative TOUCHES

Patterned wallpaper, art, lighting and accessories create a bathroom that packs a decorative punch

### MIRROR, MIRROR

'Use design elements from other parts of your house in the bathroom,' says Sarah Watson of Balineum. 'Wallpaper, fabrics and furniture help make it an extension of the house.' By BWArchitects, this Manhattan bathroom exemplifies her point, combining decorative lighting, shimmery de Gournay wallpaper, an alpaca rug and a mirror ball. ### CLEAN SLATE

The bathroom wall is the perfect place to make a big statement with an eye-catching collection of objects. The owner of this French house amassed a collection of local slate roof tiles, which make an arresting, textural display.
